

IP50HD - High Definition Video over IP Solution

Sports Bar Application

Blustream IP50HD is ideal for large scale HD video deployment in a public setting such as a sports bar. Flexible configuration and cost effective hardware enable partners the ability to deliver an industry leading AV infrastructure across multiple floors and zones.

Kit List		
AV Rack:		
QTY.	PRODUCT	
6	IP300UHD-TX	7x Satellite receivers, 1x digital signage player
1	ACM200	
2	48-port Netgear M4250 AV Line Switch	
Ground Floor:		
30	IP50HD-RX	1x To projector, rest to screens
1	Tablet or PC for system control	
First Floor:		
20	IP50HD-RX	To all screens - include booths
1	Tablet or PC for system control	
Second Floor:		
30	IP50HD-RX	To all screens
1	Tablet or PC for system control	

Scalability
 With an almost limitless restriction on system size, IP50HD is perfect for any AV project specified over multiple floors with a large number of displays.

IP50HD

High Definition Video over IP Solution

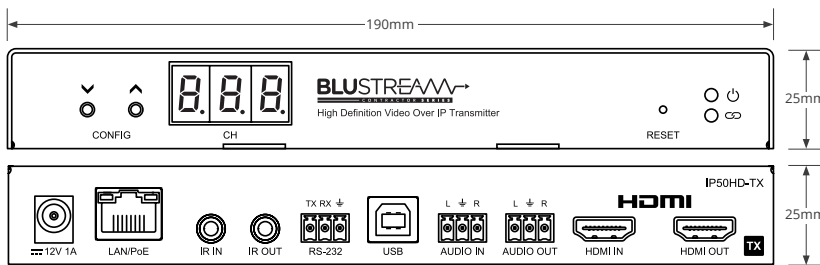

Key Features

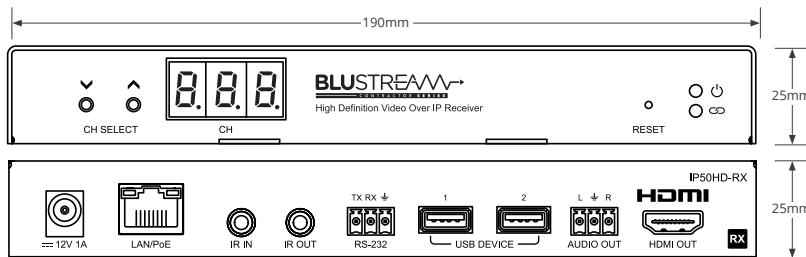

- Advanced HD video, control and KVM over network infrastructure
- Extends HDMI up to a distance of 100m over a single CAT cable
- Supports unicast transmission over unmanaged networks
- Supports multicast transmission for large managed networks
- In-built video scaler to allow for inclusion of displays with differing resolution capabilities
- Supports up to 1080p 60Hz video output
- Supports PCM 2.0 channel audio
- Advanced signal management for independent routing of IR, RS-232, USB/KVM and video/audiotransmission
- PoE (Power over Ethernet) to power Blustream products from PoE switch
- HDCP 1.4 compliant with advanced EDID management
- Analogue L/R audio breakout

drag and drop tv

Drag and Drop TV is the visually simple and practical way to control your IP50HD system. With virtually no set up or configuration required it's the easy way to deliver intuitive switching control without the added cost of a dedicated control system.

ACM210 Advanced Control Module

The ACM210 includes a web interface module for control and configuration of the Multicast system and features 'drag and drop' source selection with video preview and independent routing of IR, RS-232, USB/KVM, audio and video.

Seamless Integration

Integrate your IP50HD project with the world's leading 3rd party control systems
